January	1-28	July	161-192
February	29-48	August	193-224
March	49-72	September	225-252
April	73-100	October	253-280
May	101-136	November	281-300
June	137-160	December	301-328
Accuracy of London Weather Centre forecasts of temperature for the gas industry; R. M. Morris, 29		Davis, G. P., see Francis, Day and Davis	
Allen, Désirée M.; Sunshine cards—then and now, 273		Dawe, A. J.; A study of a katabatic wind at Brügglen on 27 February 1975, 1	
ALPEX: The Alpine Experiment, 262		Day, A. P., see Francis, Day and Davis	
ALPEX completed, 270		Development of the Meteorological Office new operational forecasting system; A. Gilchrist and P. W. White, 161	
Analysis of sudden, large falls in temperature at Lyneham during periods of weak advection; B. J. Booth, 281		Douglas, Mr C. K. M., <i>obituary</i> , 252	
Atkins, N. J.; 100 mb temperature forecasts for Concorde, 225		Edwardian dedication, 275	
Automated temperature forecasting, an application of Model Output Statistics to the Meteorological Office numerical weather prediction model; P. E. Francis, A. P. Day and G. P. Davis, 73		Enquiries on the weather then and—, 276	
Auxiliary Reporting Station Gorleston; C. S. Broomfield, 97		50 years ago, 26, 249, 327	
BBC Television weather forecasts—audience research results; R. D. Hunt, 45		Forecasting daily maximum surface temperature from 1000-850 millibar thickness lines and cloud cover; N. S. Callen and P. Prescott, 51	
Bendall, A. A.; Low-level flow through the Strait of Gibraltar, 149		Forecasting of state of sea; P. E. Francis, 209	
Booth, B. J.; An analysis of sudden, large falls in temperature at Lyneham during periods of weak advection, 281		Francis, P. E.; The forecasting of state of sea, 209	
Bower, Mr. S. Morris, <i>obituary</i> , 300		Francis, P. E., Day, A. P. and Davis, G. P.; Automated temperature forecasting, an application of Model Output Statistics to the Meteorological Office numerical weather prediction model, 73	
Broomfield, C. S.; Auxiliary Reporting Station Gorleston, 97		Gibbs, Dr W. J., award of International Meteorological Organization Prize, 279	
Broomfield, C. S.; Synoptic reports from the Isles of Scilly, 185		Gilchrist, A. and White, P. W.; The development of the Meteorological Office new operational forecasting system, 161	
Burt, S. D.; The curious case of the horizontal icicles, 183		Glasspoole, Dr J., I.S.O., <i>obituary</i> , 28	
Burton, J. M. C.; Origins of the Meteorological Office, <i>letter</i> , 23		Graham, Anne E.; Winds estimated by the Voluntary Observing Fleet compared with instrumental measurements at fixed positions, 312	
Callen, N. S. and Prescott, P.; Forecasting daily maximum surface temperature from 1000-850 millibar thickness lines and cloud cover, 51		Grant, K.; The July lower troposphere over the Middle East, 179	
Cloud patterns observed by satellite on 26 March 1982, 247		Hallisey, Mary, see McIntosh and Hallisey	
Comparative study of classifications of monthly mean sea surface temperature anomalies in the North Atlantic Ocean; C. G. Korevaar, 14		Heaviest daily rainfall in Scotland, 158	
Consideration of the effect of 500 mb cyclonicity on the success of some thunderstorm forecasting techniques; M. N. Pickup, 87		Hide, Dr R., F.R.S., awarded Holweck Medal and Prize, 136	
Coulter, J. D. and Sharma, S. K., comment on 'Computation of vapour pressure, dew-point and relative humidity from dry- and wet-bulb temperatures', <i>correspondence</i> , 158		Hunt, R. D.; BBC Television weather forecasts—audience research results, 45	
Cowland, Mrs J. M., award of M.B.E., 100		Index of windiness for the United Kingdom; S. G. Smith, 232	
Curious case of the horizontal icicles; S. D. Burt, 183		Influence of snow, fog and heavy rain on the demand for road transport information at Glasgow Weather Centre; K. Smith, 291	
Daily Weather Report and associated publications: 1860-1980; R. P. W. Lewis, 103		In memoriam, 48	
Davey, B. A.; Unusual road surface condensation, 19		Jenkinson, A. F., see Reviews, 47	
		July lower troposphere over the Middle East; K. Grant, 179
